

SERMON Q's

The True Word
January 9, 2022
2 Timothy 3:16-17

1. Where do you most feel the crisis of truth in your daily life? Can you think of smaller examples where truth is at issue?
2. What is your reaction when something you read in the Bible doesn't strike you as right, good, or true? In other words, what assumptions about truth and authority do you make that you don't even consciously consider?
3. Imagine someone said, "All Will did in that sermon was present his own truth as an alternative to someone else's. That's fine for him, but I still want my own truth." Can you understand that perspective? How would you respond?
4. What person or source of truth do you rely on perhaps more than you do on God's Word? How can we appropriately receive good things without assuming they have perfect or complete truth?
5. What does it look like in your life when you start trying to be the hero rather than Jesus? Consider emotions, actions, relationships, etc. How are you currently repenting of that struggle?
6. What is one way you want to see your life shaped more by God's Word this year?
