

SERMON Q's

**Why Grace Groups?
August 29, 2021
Hebrews 10:19-25**

1. What is the best experience you've ever had in a small group? What made that interaction or that group dynamic so valuable?
2. When you think of the grace of Jesus, is it usually more for you personally or for us corporately? How does the Bible present it?
3. When are you most grateful for the access Jesus has purchased you to God? What most overwhelms you about that grace?
4. Why do you think we struggle to draw near to God in general and together? What idols, cultural dynamics, or lifestyle choices make that challenging for us?
5. If you are in a "Grace Group," how should the priorities of this passage change the way you interact? If you are not in such a group, how do you intentionally live these priorities in other relationships?
6. How can we pray for each other to be stirred up to love and good works? What would a community of believers transformed in this way look like?
